# SMART **LUGGAGE** LOCKERS

Smart Lockers for storing luggage, keys and other personal belongings.

-  **Lockers suitable** for the storage of all types of luggage, that can combine doors for large suitcases, cabin bags, handbags and combined spaces.
-  Optional 220 V and USB **charging points** in the lockers.
-  Physical payment (coins, notes, credit cards) or cloud **payment options**.
-  **Full management website** with built-in booking engine.
-  Total **modularity** of the system and adaptation to the premises, means you can have 600 or 900 deep lockers to optimise the space available on the premises.
-  **Fully autonomous premises**.
-  **Access to the premises** through an external keypad controlled from the locker and linked to the opening codes.
